**Subject:** Draft Power Point Presentation for Tuesday's discussion with DEQ, ODF, NMFS, ODFW  
**Attachments:** Tuesday meeting- Final Decision.odp

Hey guys,

Attached is a draft power point presentation I plan to use for Tuesday's meeting (Feb. 17<sup>th</sup>). The meeting will focus on the status of ODF's riparian rule process and the recent CZARA decision. The participants are technical staff from these agencies with, possibly, a couple of mid-managers from DEQ and ODFW. The purposes of the discussion are to: inform folks of the details/status of the two processes; provide an opportunity for participants to ask technical questions; identify areas where broader conversations could occur; and define possible next steps. I will be handing out NOAA/EPA's decision document and Rtc to participants.

I would appreciate your thoughts on the presentation. I have a very small window to make changes on Tuesday morning before leaving for Portland. Your thoughts would be greatly appreciated.
